The application has been amended as follows:

In the Abstract, replaces "comprises" with –having–.

### ***Potential Double Patenting Rejections***

2. It should be noted that two other U.S. applications having the same inventive entity, 10/520275 and 11/188747 (having in common the claimed benefit of the same provisional application and/or being a CIP to the instant application), contain claims that could be used to reject the instant claims under provisional nonstatutory obviousness-type double patenting. However, since this would be the only rejection remaining in the instant application and because the instant application has an earlier filing date, such rejections will not be pursued in view of the following directive (MPEP 804)<sup>1</sup>:

If a "provisional" nonstatutory obviousness-type double patenting (ODP) rejection is the only rejection remaining in the earlier filed of the two pending applications, while the later-filed application is rejectable on other grounds, the examiner should withdraw that rejection and permit the earlier-filed application to issue as a patent without a terminal disclaimer.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Weier whose telephone number is 571-272-1409. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Milton Cano can be reached on 571-272-1398. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

<sup>1</sup> Claims in both 10/520275 and 11/188747, yet to be prosecuted, would potentially be rejected as same are the same or very similar to earlier forms of the instant claims which were subjected to various rejections.
